

IARS AUA SOCCA

ANNUAL MEETINGS 2023

IARS LATE-BREAKING ABSTRACT SUBMISSION

Guidelines and Requirements

Deadlines

January 3, 2023: Abstract site opens

February 3, 2023: Abstract submissions due, 11:59 p.m. PST

End of February 2023: Abstract submitters receive submission status notification

Submission Form

The online abstract submission form will request for the following information:

**Indicates a required field*

*Title / References

Title: Must clearly reflect the abstract content and include any animals used.

References: List references in the order in which they appear in the abstract. Cite only the name of the publication, volume, page number, and year.

*Authors

Add the Presenting Author, co-Authors(s) and Institution(s). The Author and Institution listing will appear in the Meeting App and Program materials as submitted.

*Introduction

Describe the purpose of the study.

*Methods

Provide clear statements in the following areas: Research design; research setting; number of patients enrolled in the study and how they were selected; a description of the intervention (if appropriate); and a listing of the outcome variables and how they were measured. Describe the statistical methods used for analysis.

*Results

Describe the subjects that were included and excluded from the study. List the frequencies of the most important outcome variables. If possible, present comparisons of the outcome variables between various subgroups within the study (e.g., treated vs. untreated, male vs. female).

*Conclusions

Summarize the conclusions supported by the data presented in the abstract and further implications of the study.

ANNUAL MEETINGS 2023

*Category

- ***Stage of research:**
Indicate your stage of research (select 1).
 - Clinical Study
 - Preclinical Study
- ***Area of focus for research:**
Select the area of focus for your research (select 1).
 - Basic Science Research
 - Clinical Research

*Subspecialty Category

- | | |
|--|---|
| Airway Management | Obstetric Anesthesiology |
| Ambulatory Anesthesia | Pain Mechanisms |
| Anesthetic Pharmacology | Pain Medicine |
| Blood Management | Patient Safety |
| Cardiovascular Anesthesiology | Pediatric Anesthesiology |
| Critical Care | Perioperative Anesthesia |
| Economics, Education and Policy | Regional Anesthesia |
| Geriatric Anesthesia | Respiration |
| Global Health | Sleep Medicine |
| Liver | Technology, Computing and Simulation,
Equipment Monitoring |
| Neuroscience in Anesthesiology and
Perioperative Medicine | Trauma |
| Obesity | |

*Additional Information

- ***Presenting Author Level of Training (Select one)**
 - In-Training
 - 1-6 Years after Training
 - 7-10 Years after Training
 - 11 or More Year after Training
- **Images/Charts:**
Charts may be created or uploaded in this step of the submission process. **There is a limit of five (5) total images or charts per abstract.** The Images / Charts are not included in the total character count. You may only upload files 200 MB or less and in one of the following file formats: jpg, gif, pdf, doc, or docx. **Each upload should contain only ONE image/chart per file. Do not upload documents of more than 1 page.**

ANNUAL MEETINGS 2023

Submission Rules

- The Late-Breaking Abstract submission site **does not accept Medically Challenging Case submissions.**
- Revisions are not allowed after the deadline. *The abstract will be listed in all program materials as submitted.*
- There are no restrictions on the number of submissions per submitter or presentations per presenter.
- The abstract text must be in English.
- The Introduction, Methods, Results and Conclusions sections cannot exceed 4500 characters (including spaces) total. Each section cannot exceed 2500 characters (including spaces).
- Brand Names are prohibited. Please use the generic name.
- Abstract reviews are blinded. Do not include the institution in the abstract body or title.
- Research presented at the IARS 2023 Annual Meeting should not be published in an indexed journal prior to the IARS 2023 Annual Meeting.

Human Subjects

- Human subjects should not be identifiable. Do not disclose patients' names, initials, hospital numbers, dates of birth, or other protected health care information.
- Please review the **WMA Declaration of Helsinki - Ethical Principles for Medical Research Involving Human Subjects:** <https://www.wma.net/policies-post/wma-declaration-of-helsinki-ethical-principles-for-medical-research-involving-human-subjects/>.
- Retain copies of the IRB approval and documentation of written informed consent from each study subject.
- Please review the **US Department of Health & Human Services Guidelines:** <https://www.hhs.gov/hipaa/for-professionals/privacy/special-topics/de-identification/index.html#standard>.

Animal Subjects

- Research performed in vertebrate animals must explicitly state that the study was approved by the authors' IRB for animal research (e.g., the Institutional Animal Care and Use Committee).
- Please review the **US Public Health Service Policy on Humane Care and Use of Laboratory Animals:** <https://olaw.nih.gov/policies-laws/phs-policy.htm>.

Poster Presenter Reimbursement Policy

Poster presenters at the IARS 2023 Annual Meeting are responsible for all expenses including registration, hotel and travel.

Submission Best Practices

- **Originality and Scientific Merit:** Were novel concepts or approaches used? Does the abstract challenge existing paradigms or develop new methodologies or technologies? Does the abstract address an important problem? Was scientific knowledge advanced?

IARS AUA SOCCA

ANNUAL MEETINGS 2023

-
- **Quality and Integrity of Research Design and Data Analysis:** Is the study design clearly described? Are issues of reliability and validity of the measures addressed? Are the statistical analyses appropriate?
 - **Conclusions:** Are conclusions clearly stated? How well are the conclusions justified by the data?
 - **Technical Writing:** Is the abstract clearly written and well-organized, or is the abstract difficult to follow and unfocused? Are there virtually no spelling, punctuation, or grammatically errors, or do the errors pose a distraction to the content provided in the abstract submission?
