# Online Member Communities Digital Engagement Packages

Contact IARS to discuss details and pricing.

*Each module reaches up to 500 IARS members with the sponsor determining the target audience.*

Are you thinking about digital, omnichannel, durable physician engagement? IARS has created an online member community, sponsored by DocMatter, to enable our industry sponsors to engage our membership in all of these ways. DocMatter is a unique engagement platform currently used by large and small life science companies and over 250,000 specialist clinicians around the world.

## ABOUT THE IARS ONLINE MEMBER COMMUNITY IN DOCMATTER

The IARS community is a powerful online forum of 12,000+ anesthesiology specialists in over 111 countries, delivering year-round healthcare professional (HCP) engagement, mentorship and networking opportunities. Fostering expert-led dialogue and very high (85%+) quarterly engagement levels, IARS community members are further subclassified in channels based on expressed interest in topic areas like perioperative anesthesiology, critical care medicine, cardiothoracic anesthesia, obstetric anesthesiology, trauma anesthesiology, transplant anesthesiology and patient safety, allowing for educational programming to be targeted to relevant anesthesiologists.

*Online Communities by the numbers:*

- The average key opinion leader (KOL)-led, peer-to-peer discussion is viewed over 11,200 times within the IARS Online Member Community
- The DocMatter Clinical Engagement team works with designated KOLs to ensure more than 8 out of 10 discussions receive KOL input
- Clinical discussions sponsored by industry on average see 5% higher engagement rates

## ENGAGEMENT EXTENDER PACKAGES

*Extend reach and durability of in-person presence with a digital engagement package in the IARS Online Member Community.*

Engagement packages are online learning modules between expert KOLs and target learners delivered in a modality the members are already engaging with. Detailed profile data allows audience selection to be highly targeted with prioritization to satellite symposia attendees and those known to be interested in chosen topics.

*Highlights:*

- Leverage the DocMatter system of facilitated engagement to ensure interaction between KOLs (e.g. satellite symposia speakers) and target learners
- Use pre-event modules targeted to likely attendees to generate interest and boost attendance
- Use post-event modules to reinforce concepts through multi-touchpoint education
- Reach IARS members who miss the satellite symposia with content from the satellite symposia
